In the Superior Court of the State of California, in and for the County of Santa Clara, in the Matter of the Estate of Charles Wehner, Deceased. Order Appointing Time for Hearing Petition for Specific Performance of Contract to Convey.

J. J. SCHMIDT, having filed his verified petition in this Court, setting forth facts on which he bases a claim that he is entitled to the specific performance of a contract, made with him, by said deceased in his lifetime, to convey certain real estate, which said contract is set forth in his petition, and praying for an order requiring the administrator of the above entitled estate to execute to him a conveyance of the following described property, to wit:

That certain lot, piece or parcel of land situate in the Randol Residence Tract, County of Santa Clara, State of California, and bounded and particularly described as being all of Lot No. 16 in Block 1 of the J. B. Randol's Addition to the Chapman and Davis Tract, as per Map of said Addition of record in the County Recorder's office of Santa Clara County, in Book "C" of Maps, page 21.

It is ORDERED, that Friday, the 23rd day of June, 1911, and the court-room of said court at San Jose, in the said County of Santa Clara, State of California, be, and the same are hereby, appointed as the time and place for the hearing of said petition; and that notice thereof be served on said administrator personally, and published in the Campbell Interurban Press a newspaper published in this state, for at least four successive weeks before said hearing.

Dated May 18, 1911.

P. F. GOSBEY, Judge.

L. D. Bohnett, Attorney for petitioner.

Girls' Glee Club Splendid Concert

High School Girls Showing Excellent Development under Instruction of Professor Lawrence

The Girls' Glee Club of the Campbell high school gave a very delightful concert in the assembly hall last Friday night. They were assisted by Professor M. L. Lawrence, violinist; Mrs. Theresa Pixley, soprano; and Miss Lucy Fay Lawrence, accompanist. Mrs. Pixley sang two beautiful solos, which were heartily enjoyed. The audience was delighted with the sweet music from Professor Lawrence's violin. The opening number was by the High School Orchestra, which is composed of Robert Scholz, violin; Earl Scholz, cornet; Mervin Keesling, trombone; and Miss Merna Sawyer, piano. Miss Beth Kennedy played the accompaniments for the Glee Club.

The Glee Club, is composed of about thirty of the high school girls, who have been under the tutelage of Professor Lawrence for the last year. Ten members were given at the concert, and the selections were such as brought out sweetness, harmony and volume, showing splendid development. Quite a number of the young singers are doing solo work, and some of them give promise of results that will put them in the professional class.

The patrons of the Campbell schools are to be congratulated on having Professor Lawrence in charge of the music. Mr. Lawrence has a wide reputation in this part of the state as a musical director. Not only does he handle large choruses and get splendid results, but he is especially capable in developing children's voices.

The eighth grade graduated from the Gilroy Grammar school this year has been under Professor Lawrence's teaching for the last eight years. What has been accomplished in that school can be done for the children of Campbell.

There is no study in the entire curriculum that will give the pupil such pleasure and satisfaction throughout life as vocal music if diligently pursued.

The Senior Class conducted an ice cream and candy sale before and after the entertainment, and thereby earned quite a little money for the Oriole.

Union Meeting

The Union Meeting in the Congregational church next Sunday Evening will be a W. C. T. U. meeting, at which time Mrs. Covert, a State worker, will address the meeting.

Her subject will be "A Perplexing Problem and its Solution."

Especially music will be provided.

Cambrian Graduation

The Cambrian school commencement exercises took place Friday morning, June 9 under the shade of the pepper trees, on a platform constructed for the occasion.

The program consisted of several musical numbers given by the school and Mr. Bateman the County Superintendent gave a very pleasing and encouraging talk to the parents and pupils, and presented each of the graduates with diplomas, who were Elvira Christian, Marjorie Duncan, Herman Metzler, Elnora Carter and Russel Metzler. Each delivered their oration in an excellent manner, which showed Miss Scuryucks' ability as a teacher.

Bad Enough.

Magistrate—Do you know that drink drives a man into bad company? Prisoner—Yes, your honor. It brought me before you.—Philadelphia Times.

Get Married

There's Nothing Like It

"NAME THE DAY" and call on us

Local and Personal

Ladies' hair work, working up combings. Mrs. A. W. Adams, Dillon Ave.

Mrs. B. W. Sloan of Berkeley is spending a week or two with Mrs. Whitman.

Wanted—To rent about 75 props for prune trees. R. E. Dunphy, Los Gatos road.

The Junior reception will be held this evening at the home of Mr. and Mrs. G. W. Page.

Miss Floy Lloyd and Miss Margaret Pabinger are expected home tomorrow from their school at Forestville.

The Rev. H. C. Langley will fill the pulpit of the Methodist church at Saratoga, next Sunday morning and evening. Mr. H. C. Schnackenberg went to Richardson Springs last Friday, for treatment. He expects to remain ten days or two weeks.

Miss Simpson of Tampa, Fla., Mrs. Miller of San Jose and Mrs. Pelton of Oakland were guests of Mrs. C. H. Whitman last week.

The Girls' Glee Club have been invited to give their entertainment for the Brotherhood at the Christian church, San Jose, on the evening of June 26th.

While moving a building, Geo. Page had the middle finger of his right hand pinched in the rollers so that amputation at the first joint was necessary.

The Juniors and Sophomores were given a day's vacation yesterday, as a reward for perfect class attendance for 20 days. The latter class spent the day at Alpa.

Bert K. Kerr, the Optometrist, at 36 S. Second St., San Jose, will examine your eyes carefully; if glasses are needed, fit them correctly, if not, tell you so cheerfully. See him about your eyes.

This past week the Official Board of the Congregational church gave the Campbell Boys' Club permission to build a Club Room under the south part of the church. This will give the boys an independent room 15x40 with ceiling 8 feet high. The boys mean business and will do a large part of the work themselves. They hope to have additional apparatus for use when the new room is ready for them.

Coming Events

June 9th—Junior Reception.
June 15—Grammar School graduation.
June 18th—Baccalaureate Sermon.
June 20th—Class night.
June 22nd—Commencement.

Congregational Church

Next Sunday morning the Pastor will exchange with Rev. C. W. Merrill of Saratoga, who will speak here on "Some Mother's of the Bible. The services in the evening will be the regular bi-monthly Union service. The League furnishing topic and leader for young people's service, "Religious Training and Leadership." Miss May Farley, leader. The church service at 7:30 will be in charge of the W. C. T. U., when one of their noted speakers will address the Union Congregation.
GEO. E. ATKINSON, Pastor.

HEART TO HEART TALKS

It is quite safe to assume, Mr. Man, that you have had a mother. Let us hope that she was a good woman, and did not view life thru too small a loop-hole. It is to be feared that many a good woman gets a glimpse of the larger life of the Universe thru her kitchen windows only. Wherefore there is crying need of a larger outlook. The mothers of the world need to know many things beside housework. And they need the best of tools with which to carve out the destiny of the race.

For it is the mother who sets the pace always. Not only during the adolescence of the child, but during the prenatal period, her prevailing thought-moods seal, as with a signet, the temperamental traits of her offspring. If the mother is narrow-minded and ignorant the child will be inferior intellectually. If she is a slave her son will bear the marks of her chains.

Were it not that the son inherits after the mother, and the daughter after the father, the sexes would be farther apart than the poles. There has been too little community of interest between the man and the woman. It has been the old fab of the frog and the mouse as yoke-fellows all over again.

One generation has no right to saddle the next with unnecessary burdens. And if the generation which is passing was content with a narrow sphere of action, that is no reason why the coming generation should be satisfied with the same. Discontent with a low standard of life makes always for progress. Our remote ancestors plowed their fields with X sharpened sticks. But the most scientifically constructed machine hardly satisfies us now.

So with our economic conditions, Larger liberty to the individual; greater educational advantages; a prouder place among the nations; higher standards of living; higher ideals in the social life; a better adjustment between man and man, in the business and political life of the nations are constantly demanded. We MUST progress whether we will or not. The generation back of us push us forward. The generation in front of us draw us on!

One reason why we have made such slow progress in political and economic ways is directly due to the fact that the great conservative principle, of which woman is the prototype, has been so lacking. The political brood has been an incubator lot. It has lacked the "mother" element. That may be very well for chickens, but human affairs can not afford the loss of this vital principle. So, Mr. Man, even if your good mother took little interest in anything outside of her four walls, that is no reason why your wife should be so cramped. And a woman who knows nothing about the larger life of the world—who does not take an interest in the children of other women—can not be a really perfect mother. She needs to grow.
IDA M. COATES.

Christian Science Services

In Odd Fellows' Hall every Sunday morning at 11 o'clock. Subject for June 11; God the Preserver of Man. The public is cordially invited.

THE MAN WHO WANTS TO BORROW MONEY

A GOOD PLACE TO TRADE

SUMMARY OF PAST WEEK'S COAST NEWS

Interesting Events Among Our
Neighbors in the Far
West Reviewed.

What Has Transpired on the Border
of the Broad Pacific From
Alaska to Mexico.

Santa Clara.—Work on the new Santa Clara College will begin in a few days. The administration building will be constructed first, and it is understood that the contract has been awarded.

Martinez.—Edward Gilmore, the convicted murderer of Arthur Delvon of Pinole, was found guilty of manslaughter in the Superior Court here and sentenced to serve 10 years in San Quentin.

San Francisco.—A fire, probably caused by spontaneous combustion destroyed the ordinance store at Fort Baker, caused a property loss of \$10,000, and for a time threatened to wipe out all the buildings of the post.

Spokane, Wash.—Derailed at a sharp curve 26 miles east of Lind, Wash., the "Columbian" eastbound passenger train on the Chicago, Milwaukee and Puget Sound Railroad was wrecked. Seven coaches were derailed and the engineer and fireman were instantly killed.

San Diego.—Captain Tony Vegas of the rebel forces at Tia Juana, who shot and killed a Mexican named Pacheco during a row, was taken out and executed by a rebel firing squad. Vegas refused to be blindfolded and calmly fought a cigarette, faced the squad and told them to aim carefully.

Sacramento.—Apricots will be shipped to markets of the East by California growers before the end of the week, according to a report issued by the California fruit distributors. By the first of next week they will be going out in carload lots. The fruit has ripened rapidly in the entire deciduous sections.

Spokane.—The Oregon-Washington Railway and Navigation Company has plans for a network of lines covering the rich lands of Central Washington, and extending with possibly two lines to the Canadian border. A map of a new line from Lamont, six miles south of Sprague, to Harrington, was filed with the United States Land Office May 24th.

Everett, Wash.—Fire destroyed a large part of the business district of Snohomish, causing loss of \$150,000. Thirty-five business establishments were burned. Most of the burned buildings were of frame construction and old. Snohomish is nine miles southeast of Everett, is an old town and was formerly the Snohomish county seat.

San Francisco.—Lelio Corvino, aged 37, a barber with six motherless children, went to the home of Mrs. Johanna Corvino, aged 32, his brother's wife and his own cousin, and emptied a revolver into the young woman's body because she refused to promise that she would end a clandestine love affair with his son, Angelo, a boy of 21. The woman died instantly.

Oakland.—Employing the tactics used successfully to stop the Jeffries-Johnson fight, the Oakland Church Federation, headed by its attorney, is taking steps to prevent the Wolgast-Moran bout, scheduled for July 4th in San Francisco. Letters have already been dispatched to Attorney-General Webb and to the Governor, enclosing copies of the State law and accounts of the recent Burns-Wolgast battle.

Roseville.—The Ramona Hotel, one of the largest buildings in Roseville, was destroyed by fire. The loss is about \$30,000, covered by insurance. Forty-five guests narrowly escaped being caught in the burning building. They got out with scant attire and lost nearly all their effects. One newly married couple lost all their wedding presents and jewelry and barely got out of their room before the walls fell.

Sacramento.—Ten of the 40 employees of the State Library were dismissed by State Librarian James L. Gillis on account of the reduction in the monthly income of the institution from \$5000 to \$3500 through a mistake in the work of the recent Legislature whereby an old chapter relating to the distribution of the fees from the Secretary for State's office was substituted for the one that had been in force the past two years.

CRIMINAL PROSECUTION IN CASES OF MONOPOLISES

No More Suits in Equity Under Sherman Law Says U. S. Attorney.

New York.—Anti-trust prosecutions in New York hereafter will be directed entirely toward individuals, with an effort to put the guilty in prison, instead of further resort to equity suits under the Sherman anti-trust law, according to United States Attorney Wise.

Wise was discussing the decisions in the Standard Oil and Tobacco Trust cases, and while he emphasized that he was not speaking for the Attorney General or any one else in authority at Washington, he thought there would be no more suits in equity under the Sherman law, at least so far as he was concerned.

The only remedy he would hereafter try, he said, would be the criminal prosecution of individuals.

Send To England For Servant Girls.

Adelaide.—The Government recently appointed two women to inquire into the domestic servant question. They report that the evidence is overwhelming that the supply of girls for domestic service is very far short of the demand. Several hundreds could be placed. Their inquiries showed that domestics were invariably well treated. They receive good to large wages and plenty of holidays. They are well housed. The investigators recommend the importation of a large number of carefully selected domestics. With this end in view the Government is sending Miss Walker, one of the lady commissioners, to England to select suitable girls.

Mining and Game Preserve.

Oroville.—According to a report, 800 acres in the canyon of the Feather river, north of Oroville, which is traversed by the Western Pacific, has been purchased as a game preserve by Los Angeles capitalists headed by Walter Armstrong. The tract contains 40 acres of rich placer gravel. It is the purpose of the members of the club to devote themselves to placer mining when they tire of hunting and fishing. Tobin will be the station for the new preserve.

No Women Clergy in Norway.

Christiania.—The head of the Church Council has refused permission for Rev. Anna Shaw to preach in the church here. The question of women in the clergy has for some time agitated Norway and has caused disunion. Bishops oppose the aspirations of women for holy orders. The supporters of aspiring women had hoped that Rev. Anna Shaw would be able to break down the opposition here, but they have been disappointed.

Acrobatic Automobile Kills One.

Chico.—While speeding along the road from Oroville to Gridley an automobile driven by George Wickman, a resident of Gridley, skidded while making a turn, turned a summersault and fell upon its four occupants. Wickman was killed, Frank Hackett, also of Gridley, was fatally injured and Thomas Smith was seriously hurt. Neil DeHaven of Oroville alone escaped unharmed.

A Novel Advertisement.

Willows.—Probably the most unique shipment ever made from this end of the State has started on its way east. The Sacramento Valley Irrigation Company shipped a year-old peach tree bearing over 100 peaches to its Chicago office to show Glenn county's productivity. The tree is six feet high and when packed with dirt weighed 1000 pounds. It was shipped by express.

Castro Planning Overthrow.

Caracas, Venezuela.—The Venezuelan Government is making a diligent search in shipping and other circles to learn the whereabouts of Cipriano Castro, the former President of the republic, who is now in exile. The Government claims to have knowledge that Castro is planning a revolution against the administration of President Gomez.

More Opium Seized.

San Francisco.—The biggest single seizure of opium in recent years was made by United States customs officials on board the Japanese liner America Maru when within a half-hour after she had entered the Golden Gate they dragged from the vessel's forepeak fresh water tank 900 five-tael tins of the drug, valued at \$27,000.

Rails Twist in the Sun.

Detroit.—A warped rail, a result of the intense heat, was responsible for the derailment of two cars of a Cincinnati, Hamilton & Dayton passenger train near Erie, Pa., on Tuesday. The trainmen and several passengers were injured.

Perfect Peace In All Mexico Not Yet Established

Juarez, Mexico.—Before another month passes, there will be changes in the personnel of the Governors of nearly every one of the 27 States in the Mexican republic. This was the declaration of Francisco I. Madero Jr. He said that the installation everywhere of provisional Governors soon would be followed by State elections.

Senor Madero regards the change of Governors as essential to the restoration of complete tranquility. The fighting reported at Choluta, south of Puebla, he attributed to local disaffection.

The whole west coast seems to be in a state of anarchy. The jails are emptied as fast as the mobs can reach them, and looting and murder are prevalent everywhere.

In the interior Madero, where he has the power, is appointing State Governors and compelling their installation by armed force, which is farther in that direction than Diaz ever ventured. But the extent of his power

seems quite limited and uncertain of lasting. Diaz was compelled to fight his way out of the country which it was supposed that he had saved, and Madero does not dare to venture to the capital, even, where he is menaced by assassins.

Senor Madero has repeatedly stated he could not leave for Mexico City until the provisional Governors were installed in the northern States of Coahuila, Sonora, Chihuahua and Sinaloa. The new Government starts out bravely on paper arranging for the discharge of the insurrecto armies with full pay and the payment for all damage done by insurrectos or Federals. The ranks of the legislators have been decimated by revolutions and these bodies may have to be reorganized before the Maderistas can be formerly named. Senor Madero, however, says he feels satisfied with the situation and surely would leave here for the national capital at an early date.

U. S. Post Office Department is Now Self-Supporting

Washington.—For the first time in the history of the service the deficit in the Postoffice Department has been entirely wiped out and \$1,000,000 surplus for the current year ending on June 30th is in the treasury to the department's credit.

Postmaster-General Hitchcock signed a warrant returning to the Secretary of the Treasury \$3,000,000, the last of the amount set apart from the public funds in defraying the expenses of the postal service for the present year. Reforms in the financial system, it is said, have made the refund possible.

An accounting plan, which was

adopted about a year ago, insures the prompt deposit in the treasury of the postal funds not required for disbursement at postoffices, thus making available for use by the Postoffice Department several millions of dollars that under the former practice would be tied up in postoffices.

Under the old system, it required approximately \$10,000,000 to finance the Postoffice Department. In making the refund, Hitchcock said he was satisfied the postal revenues would be more than sufficient to defray the postal expenses during the rest of the fiscal year, and that July 1st would show a surplus of more than \$1,000,000.

Legislature Special Session For Next November

Sacramento.—Returning to his office after ten days' visit in the south, Governor Johnson announced that he would call a special session of the Legislature in November for consideration of the constitutional amendments which will have been voted upon by the people at a special election.

The Legislature will be called upon to pass laws to place in operation such amendments as may be adopted by the people, and also to consider the revenues of the State. Under the opera-

tion of the new method of taxation it is uncertain how much revenue the State will receive. It may be necessary for the Legislature to take steps to secure additional revenue.

Governor Johnson is much improved in health. He was suffering from an attack of rheumatism when he left, but the automobile trip to Los Angeles and return did him good. The announcement of appointments on boards, commissions and other officers will not be made for some time.

Queen Mary's Crown Elegant Lace-Like Trocery

London.—The official regulations to govern the coronation are being gradually concluded. The King made a number of special appointments of high and picturesque officials. Among the boaters of the royal regatta named are Lord Roberts and Lord Kitchener, to carry the second and third swords, while the Duke of Roxburghe is appointed to the steward's staff.

The police have issued elaborate regulations to control crowds.

Queen Mary's crown has just been completed. It is according to her own design, with a delicate lace-like tracery, wholly in diamonds, the Kohinoor being set in the center. The crown weighs 19 ounces, the Queen having insisted that it should not exceed the weight of an ordinary hat. It will be used only at the coronation. After that ceremony the gems will be dismantled and used in separate articles of jewelry. The King will wear his father's crown.

Battleship Maine Wreck Will Soon Be Out of Water

Washington.—Without precedent in engineering practice, and projecting only a foot or two above high tide level, the coffer-dam built around the wreck of the battleship Maine in Havana harbor is assured of success, in the opinion of army engineers. The land-locked harbor is not disturbed by high waves, and engineers say that if the dam should ever be threatened with flooding from the top, its height could easily be augmented.

Pumping out of the water will probably begin about June 15th. It has been delayed because some of the steel rails driven to interlock the circular tubes that make the wall were bent, permitting water to pass through. Limited facilities handicap strengthening these rails.

It is believed that some leaks will develop as the water level in the dam is lowered, but that is true of all large dams, and the leaks can be controlled.

Lumber Kings Are Accused of Restraining Trade

Chicago.—Attorney-General Wickersham ordered steps taken in Chicago to prosecute members of the lumber "combine" of the Middle West on criminal charges of conspiracy in restraint of trade under the Sherman law. He obtained an order for a special Grand Jury from District Judge Landis.

Several days ago the Federal Government filed suit in New York against 10 trade organizations and more than 150 individuals for the dissolution of the lumber "combination" which dominates the Atlantic States. A majority of the charges made in that prosecution are understood to form the basis of evidence to be presented to the special Grand Jury in Chicago.

CONGRESS WILL NOT ACT ON BERGER RESOLUTION

Which Means No Action In Arrest and
Extradition of the McNamara's.

Washington.—That Congress will not conduct an investigation into the arrest and extradition to California in connection with the Los Angeles dynamiting case of J. J. McNamara, the Indianapolis labor leader, was indicated when the House Committee on Rules decided to take no action on the Berger resolution providing for such an inquiry.

The testimony taken by the committee at its hearing on the resolution, however, will be laid before Congress for its information and for the particular reason that the House Judiciary Committee will consider a bill of Representative Madison of Kansas of the Rules Committee said every lawyer knew the extradition of McNamara was irregular, but he would now have to stand trial in California.

The San Joaquin Water - Way.

Fresno.—T. J. Hammond, a prominent local merchant, is touring the West Side in an effort to secure 200 tons of freight for the initial Fresno San Francisco steamer trip on the San Joaquin river, to be made this week. It is part of the condition imposed by the steamer company that has undertaken the trip that 200 tons of freight be secured. The County Surveyor believes that the problem will be solved. Freight will be landed at each of the river towns and at the bay to points consigned, and freight for Fresno will be hauled by team into this city from a point north of Skaggs bridge, beyond which it is at present impossible to proceed.

Bomb In Glass Eye.

Allentown, Pa.—The false eye worn by Frank R. Minner, building inspector, exploded as he sat chatting with a friend. Minner fell in a faint. His companion was at a loss to know what had happened until blood began to flow from the inspector's eye socket. It is feared that particles of glass may have penetrated Minner's brain. The theory is advanced that celluloid had been substituted for glass in the making of the eye and that the heat of the body caused the explosion.

Storm in Northern Ohio.

Cleveland.—Four dead and 20 injured was the toll of the terrific wind and rain storm which swept over Cleveland and vicinity, wrecking buildings, overturning boats in Lake Erie, breaking down poles, tearing up trees and smashing windows and signs. The storm was general in northern Ohio. Three lives were lost at Lorain. All of the dead were in row boats, which were capsized by a sudden wind which sprang up out of a calm.

Profit Sharing System for Employees.

New York.—Plans for a profit-sharing system for the 600,000 employees of the National Electric Light Association were presented in the report of the public policy committee at a session of the annual convention. Plans for accident and sickness insurance for employees, death benefits, pensions and life insurance and employees savings and investment funds were also outlined.

Start Work on Huge Dam.

Oroville.—Arrangements are being made by the Great Western Power Company to start a force of a thousand men at work at Big Meadows within the coming month. It is the purpose of the company to begin work at once upon the excavation for the huge dam to be erected at Big Meadows. For this work there is now on hand \$1,800,000 for immediate expenditure.

Wireless Apparatus and Operators

San Francisco.—As the time draws near for the enforcement of the new Federal law requiring ocean steamers carrying 50 or more passengers to be equipped with wireless apparatus and radio-communication operators, there is a scramble in steamship circles to comply with the law, which is drastic in the matter of penalty for non-compliance.

Dan Cupid Busy at White House.

Washington.—Dan Cupid is becoming a regular White House caller. His latest visit has resulted in the marriage of George W. Riley, the White House electrician, and Miss Florence I. Marsh, maid to Mrs. Taft. About a year ago James Mulvey, a White House policeman, and Martha Peterson, the Taft cook, were married.

Money Goes With Cashier.

Loyalton.—Examination of the books of J. J. O. Millar, missing cashier of the Bank of Sierra Valley, by Bank Commissioner Schammel, resulted in the discovery of \$15,000 in the missing officials' accounts and this amount may be increased by further investigations.

DOCTORS FAILED TO HELP HER

Cured by Lydia E. Pinkham's
Vegetable Compound

Pound, Wis.—"I am glad to announce that I have been cured of dyspepsia and female troubles by your medicine. I had been troubled with both for fourteen years and consulted different doctors, but failed to get any relief. After using Lydia E. Pinkham's Vegetable Compound and Blood Purifier I can say I am a well woman. I can't find words to express my thanks for the good your medicine has done me. You may publish this if you wish."
—Mrs. HERMAN SETH, Pound, Wis.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and suffering women owe it to themselves to at least give this medicine a trial. Proof is abundant that it has cured thousands of others, and why should it not cure you?

If you want special advice write Mrs. Pinkham, Lynn, Mass., for it. It is free and always helpful.

As a Last Resort.

The customer had spent two hours in pricing and inspecting the various types of furnace kept for sale at the big establishment.

"Well," she said, turning away at last, "I've got to find some cheaper heating plant than any you have in stock."

"In that case, ma'am," the salesman said, bowing her out, "permit me to suggest that you try red pepper."—Chicago Tribune.

The Hunt Steeplechase Season.

Sportsman (assisting jockey who has been knocked out)—Stand back, please; a little more air! and hurry up with that brandy!

Faint voice from patient—Never mind 'bout the air.—Punch.

PHYSICAL WRECK RESTORED TO HEALTH BY GREAT KID- NEY REMEDY.

I feel it my duty to furnish you with my testimonial as to what your remedy Swamp-Root did for me when I was a physical wreck from kidney and bladder trouble. Some years ago I was not able to do any work and could only just creep around and am satisfied that had it not been for Dr. Kilmer's Swamp-Root I would not have lived. After using the preparation for one month I was able to work some and when I had used \$8.00 worth of Swamp-Root I could do a good day's work. I used about \$10.00 worth altogether and would not take \$10,000 for the good that it did me. I consider it a God-send to suffering humanity for the diseases for which you recommend it and have recommended it many sufferers.

H. L. HUGGINS,

Welch, Ark.

Personally appeared before me this 20th of September, 1909, H. L. Huggins, who subscribed the above statement and made oath that the same is true in substance and in fact.

W. A. PAGE, J. P.

Letter to
Dr. Kilmer & Co.,
Binghamton, N. Y.

Prove What Swamp-Root Will Do For You.

Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention this paper. For sale at all drug stores. Price fifty-cents and one-dollar.

AGRICULTURAL CHEMISTS
Chemical and physical examination of SOILS,

A Hair Dressing

If you wish a high-class hair dressing, we are sure Ayer's Hair Vigor, new improved formula, will greatly please you. It keeps the hair soft and smooth, makes it look rich and luxuriant, prevents splitting at the ends. And it keeps the scalp free from dandruff.

Does not change the color of the hair.

Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says.

Ayer's

At the same time the new Ayer's Hair Vigor is a strong hair tonic, promoting the growth of the hair, keeping all the tissues of the hair and scalp in a healthy condition. The hair stops falling, dandruff disappears. A splendid dressing.

Made by the J. C. Ayer Co., Lowell, Mass.

To prevent potatoes from becoming discolored when boiled, peel them and let them lie in cold water at least an hour before boiling.

of this paper desiring to buy anything advertised in its columns should insist upon having what they ask for, refusing all substitutes or imitations.

A GOOD HOME-MADE SOAP EASILY MADE IN THE SUN

Scraps of Fat and Skimmings Turned Against the Grocer's Bill.

Save all the trimmings from both cooked and uncooked meats, scraps of fat and skimmings from soup pots and stews, and every bit of fat that cannot be used for frying, and keep it in a soap-fat kettle till enough has been collected for use. For one can of lye there should be about six pounds of fat. When tried out, dissolve one can of granulated lye in three and a half quarts of cold water, using an iron or earthen vessel. Place in the sun. Fry out the fat, carefully strain and set aside to cool. When the lye water is warm, pour it slowly into the luke-warm grease. (Never pour the grease into the lye.) Add a heaping tablespoon of borax and stir until the lye and grease are thoroughly combined; do not stir after the mixture is thick or the materials will separate. Have ready a wooden box lined with clean white paper or cloth, pour the soap into this and set into a warm place for a day or two to harden. Keep carefully covered. If it should show greasy streaks through it, remelt and add a pint and a half of water. When hard, cut into cakes with a fine cord or wire.

Delicious Guatemalan Coffee.

Officials of the Guatemalan (Central America) government have notified the officials of the Panama-California Exposition that they will make an exhibit of the products of Guatemala at San Diego in 1915.

The main product is coffee. Guatemala produces one of the finest varieties of coffee in the whole world. The Guatemalan housewife roasts her own coffee just as an American housewife makes her own bread, in order to have good coffee and good bread. She grinds to powder, and in making it to drink puts in her air-tight pot about a tablespoonful for each person. Upon this she pours boiling water and allows the coffee to steep, like tea, for from eight to ten minutes. The resultant beverage is brown, clear and delicious as no other coffee grown in Central or South America. Guatemala will show the whole process of growing, reaping, sorting, sacking and preparing coffee to drink, in its exhibit.

A Close Copy.

With a view to possible guidance of Bridget's mind toward a quieter summer hat than the one which she had worn the season before, Mrs. Lee spoke of some violets she had seen in a milliner's window.

"You see these violets that have been sent to me, Bridget?" said her mistress. "They are just like those in the milliner's window, except that these are a little bit larger."

"I saw them the day before yesterday," said Bridget, "and these is the very moral of 'em. Ain't it wonderful, ma'am, how natural the Lord can make things?"—Youth's Companion.

Forgot His Manners.

There was a Harvard student whose family crossed the ocean and left him to finish his senior year with the promise that, if he got his degree, he might come along. The cipher to announce this triumph was fixed as the simple word "Yes," but when a cable reached the head of the family in Paris containing only the monosyllable the father had totally forgotten the conversation and cabled back, "Yes, what?" to which in due time came the reply, "Yes, sir."—Boston Transcript.

Pay Up and Save the Editor.

The life of our editor was saved the other day by a silver dollar in his pocket. A crank shot at him and the ball struck the dollar. Now should we happen to get shot before you pay up your subscription, and there is no dollar to stop the ball, we shall always presume you might have saved our life.—Humphrey County (Tenn.) Herald.

No Room.

"Bertie," said the hospitable hostess at a Sunday-school treat, "won't you eat some more cookies?"

"I can't. I'm full!" sighed Bertie.

"Well, then, put some in your pockets."

"I can't. They're full, too," was the regretful answer.—Youth's Companion.

What It Was.

"What a brilliant marriage," said the genial lady. "He is worth several millions, and she will inherit at least a billion."

"That's not a marriage—it's a merger."—Washington Star.

The Harder Time.

Jack—I've just had a hard time. I've been popping the question.

Mack—I've had a harder. I've been questioning the pop.—Baltimore American.

Though blessed with the most fertile soil and most favorable climate in the world, the United States produces less wheat per acre planted than England, Germany or Holland.

MEALTIME!

But No Appetite!

YOU SHOULD TRY HOSTETTER'S STOMACH BITTERS

There is no question but that the Bitters will quickly restore the appetite, aid digestion and prevent Liver Troubles, Malaria, Fever and Ague.

Start to-day.

Plumber Who Took the Plum.

"You're wanted," said the small boy. "Who wants me?" demanded the plumber.

"Number one hundred and thirty-seven; the house you've just come from."

"Do they think I can work all hours of the day?" retorted the plumber.

"You'd better come," persisted the small boy, stoutly, "or it'll be too late. Ma's got hysterics, and pa's gone nearly mad, and—"

"Look here, sonny!" asked the plumber. "What's up?"

"Well, I think you've connected the wrong pipes, or something," replied the boy. "Anyhow, the chandelier in the parlor is spraying like a fountain and the bathroom tap's on fire!"—Answers.

TRY MURINE EYE REMEDY

Red, Weak, Watery, Watery Eyes and Granulated Eyelids. Murine Doesn't Smart—Soothes Eye Pain. Druggists Sell Murine Eye Remedy, Liquid, 25c, 50c, \$1.00. Murine Eye Salve in Aseptic Tubes, 25c, \$1.00. Eye Books and Eye Advice Free by Mail.

Murine Eye Remedy Co., Chicago

The True Test.

"I understand you speak French like a native."

"No," replied the student. "I've got the grammar and the accent down pretty fine. But it's hard to learn the gestures."—Washington Star.

EVERY WOMAN WILL BE INTERESTED.

There has recently been discovered an aromatic, pleasant herb cure for woman's ills, called Mother Gray's AUSTRALIAN LEAF. It is the only certain regulator. Cures female Weakness and Backache, Kidney, Bladder and Urinary troubles. At all Druggists or by mail 20 cents. Sample FREE. Address the Mother Gray Co., Le Roy, N. Y.

"All Is Vanity."

Madge—I see some ministers demand that the women remove their hats in church.

Marjorie—The idea! What do they think we go there for, anyway?—Judge.

PLUMBING MATERIAL—CUT PRICES.

We are not in the combine, sell anyone; complete line, every fixture guaranteed. Bathtubs \$10 Sinks \$2. Wash Trays \$1.75, pipes and fittings accordingly. C. P. Plumbing Material Co., 320 to 328 McAllister St., near Larkin, San Francisco, Cal.

Lucky Seven.

Griggs—I am a great believer in the magic number seven. Success has just seven letters, you will notice.

Briggs—And how about failure?—Boston Transcript.

Dr. Pierce's Pleasant Pellets first put up 40 years ago. They regulate and invigorate, stomach, liver and bowels. Sugar-coated tiny granules.

Distracting.

"What drove the lady exchange editor crazy?"

"Reading of bargains in cities a thousand miles away."—Toledo Blade.

The adulteration of food in France is said to result in a profit of \$100,000,000 a year.

A Bad Advertisement.

Druggist (to his stout wife)—Don't come in just this minute. I am about to sell six bottles of my fat-reducing mixture.—The Continent.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Brewers, tanners and printing ink makers are said to be exempt from tuberculosis, employees from turpentine factories from rheumatism and salt miners from colds.

The largest vessel ever built in Switzerland, a steamboat 229 feet long, is being constructed for use on Lake Geneva.

Two or three applications of milk, each wiped up with a dry cloth, will remove India ink stains from carpet.

New York has prohibited the use of electric signs projecting more than six feet from the building line.

London has a new club which is almost run by electricity, even the waiters being electrical.

IF WE EXTERMINATE THE FLY, WHAT THEN WOULD APPEAR?

Perhaps Some Other Plague Would Be Discovered Taking This Place.

Just about this time of the year there are many injunctions in the public press to "swat the fly," with a promise of the most direful results if this warning be not followed. But few people know much about the real truth of the fly question, beyond the fact that the housefly is a carrier of the germs of certain diseases, such as typhoid fever, intestinal disorders and tuberculosis. There is, however, another side to the question, and some of the greatest entomologists on the North American continent discuss it in the June number of Popular Mechanics Magazine.

The following question is raised: "If the fly be exterminated, supposing that were possible, would it tend to upset the 'balance of nature' and result in some other plague that might be even worse than the flies themselves?" And it is argued.

"Similar things have happened before. The decimation of the coyotes resulted in a plague of gophers. The mongoose was practically exterminated and the rats multiplied so as to become a menace. The weasels were killed off and the rabbits overran the countryside, and ate up every green thing in sight. The English sparrow was imported to destroy the measuring worm, and now people are wondering how to kill off the sparrow, which has increased so alarmingly as to become a pest. In Northern China the wolves kept down the marmot or land otter, but when the natives waged war on the wolf the marmot increased and spread the plague."

Apple Epigrams.

The apple is the aristocrat of foods and the best medicine.

The climate and conditions that are best for apples are best for man.

Anarchy never gathered fruit from its own apple tree.

Apple orchards are better nurseries of citizenship than the deck of battle-ships or military camps.

The man in the orchard is always a good citizen.

I would rather trust a judge that loves apples than one that hankers after bear meat.

Apples are an antidote for drink and tobacco.

Apples carry the pure food stamps of the great physician.

The road that leads to the orchard is the pathway to a simple, happy, prosperous life.—Denver News.

Boiled Rice Salad.

Wash and soak a cupful of rice, then throw it by handfuls into five cupfuls of water that has been thoroughly salted and has come to a boil. Let it cook until the rice has absorbed all the water; then add chopped green peppers, chives, parsley and onions and mix thoroughly. When cool, but before it is firm, set it to mold, and when stiff garnish it with a boiled dressing, placing on top of each portion a stalk or two of asparagus and a sprinkling of parsley and onions chopped fine.

Something in Oil.

"Yes, madam," said the floorwalker in a voice of milk and honey, "and what can I show you?"

"I want—something in oil," she demanded, "suitable for my dining room."

"Quite so, madam, quite so," said the floorwalker, gazing meditatively at her wedding ring. "Would you prefer salad oil, oil cloth, oil paintings or sardines?"

April Fool.

Little Girl—"I saw a great big man slip into our pantry and hug and kiss the hired girl."

Mamma—"Oh, dear, the horrid man. Call John quick and tell him to kick him out into the street."

Little Girl—"I only wanted to April fool you, mamma; the man that kissed the hired girl was papa."—Ex.

Corrected.

"Did you learn anything while you were in the East?" asked Plute Pete.

"I should say I did," replied Broncho Bob. "I went to a cowboy play and found out that the costumes and dialect we fellows are using out here are all wrong."—Washington Star.

A Larger Field.

"Father, I am not sure whether I shall be a specialist for the ears or the teeth."

"Choose the teeth, my boy; every one has thirty-two of them, but only two ears."—Sacred Heart Review.

The Limit.

Stella—Is she a grass widow?

Bella—An alfalfa widow; she has had three crops of husbands in a year.—Judge.

A Drop of Blood

Or a little water from the human system when thoroughly tested by the chief chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., tells the story of impoverished blood—nervous exhaustion or some kidney trouble. Such examinations are made without cost and is only a small part of the work of the staff of physicians and surgeons under the direction of Dr. R. V. Pierce giving the best medical advice possible without cost to those who wish to write and make a full statement of symptoms. An imitation of nature's method of restoring waste of tissue and impoverishment of the blood and nervous force is used when you take an alternative and glyceric extract of roots, without the use of alcohol, such as

Dr. Pierce's Golden Medical Discovery

Which makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgment. Get what you ask for!

REMINGTON UMC .22

Solid-breech Hammerless REPEATING RIFLE

Racy beauty of line, perfect balance. Its appearance often sells it.

And—it's as keen a rifle for its size as highly developed military arm.

Built by expert gunsmiths on the Remington-Union Metallic Cartridge Co. Idea—Solid Breech, Hammerless, Take-down.

Shoot Remington-UMC Lesmok .22s. Their accuracy enabled Arthur Hubalek to break World's Record in 100 consecutive shots, scoring 2,484 in a possible 2,500.

Remington-UMC—the perfect shooting combination.

Keep the High School Democratic
Simpler Graduation Dress—Less Ex-
pensive Entertainments—Rented
Text-books

A movement is on foot in many parts
of California to make the high school
graduation exercises this year much
simpler and less expensive than they
have been in the past. This is part of a
general scheme to make the scale of
dress and entertainment in high schools
conform to more sensible standards, but
it is the part which it is especially timely
at this season to call to public attention.
California is building rich and splendid
high schools all the way up and down
the land from Oregon to Mexico. This
is right and proper, for it is at the public
expense, and we, the public, may well
give to our own children the best schools
that money can buy. But we must have
a care lest the richness and splendor of
the buildings and equipment be uncon-
sciously reflected in the demands for
personal expenditure upon the children
and the parents. These personal de-
mands of whatever nature need to be
constantly watched by the school authori-
ties, and kept down to a constant level
of simplicity and economy. It is to the
safety and to the perpetuity of the high
school as an institution to do this. It is
to the highest interest of the state to con-
duct the high school so that every
youngster, rich or poor, shall have equal
opportunity within its walls.

One of the most insidious evils that has
wormed its way, almost unnoticed, into
the public school system, is the extrava-
gance in expenditure which has been
permitted to the children. This is espe-
cially conspicuous in the matter of
clothes; boys clad in expensive tailor-
made suits and girls in fashionable gowns,
sometimes make the entrance to the
school buildings at noon remind the pas-
senger of a mansion at which an afternoon
reception is in progress.

The evil of this custom lies not only in
the formation of habits of extravagance
in the children, but in the humiliation it
brings to the poorer children, and in the
extra burden it lays upon their parents.
In one of the larger high schools in this
state, in the Bay region, cases have been
brought to the principal's attention of
girls being withdrawn from school by
their mothers, because they could not
keep up with the competition of clothes.

Such a condition is un-American and
unpatriotic. The schools are supported
by general taxation for all the people,
and nothing should be tolerated in them
that makes them inhospitable to the
poorest citizen's children.
One practical step toward an improve-
ment of this condition is the movement
to limit expenditures for graduation.
The absurd sight of a class of high school
boys graduating in swallow-tail coats,
which was seen in one school last year,
should never be repeated. In several
schools an agreement has been made
that no suit or dress shall cost more than
a certain moderate sum, thus bringing the
expense of the graduation within the
purse of all the pupils. In another
school, the suggestion has been offered
that the girls should be required to make
their own dresses. This would give all

SPECIAL WATCH BARGAIN—We offer
to the readers of this paper a handsome, re-
liable timepiece in gold filled case, stamped

W. C. T. U. Notes

The Woman's Christian Temperance
Union will hold a Mother's Meeting at
the home of the President, Mrs. W. W.
Stewart on the Santa Clara road opposite
the High School building. The Mothers
will be addressed by Mrs. Alfred J. Ken-
nedy of Santa Clara, County Superin-
tendent of Mother's Meetings. Mrs.
Kennedy is an excellent speaker.

"The Child's Right" will be the sub-
ject for discussion. Refreshments and
tea will be served and an offering taken.
All interested are cordially invited to be
present. The meeting will unquestiona-
bly be one of interest and profit.

At the Union Service Sunday Evening,
June 11th there will be a solo by Miss
Draper of College Park, a graduate of the
University of the Pacific; there will also
be other sweet singers and an interesting
talk by Mrs. Covert of Morgan Hill.
Come out and bring a friend.

Notice to Subscribers

A blue circle around this notice indi-
cates that your subscription has expired.
If you wish the paper discontinued please
notify us at once. If we do not hear
from you it will be understood that you
call soon and leave a dollar.

A blue cross thru this notice means
that this is the last issue of the paper that
will be mailed you unless a settlement is
made. The Postoffice Department for-
bids the delivery of papers not paid for.

An East Indian Verdict.

In a case in one of our Indian courts
a jury had before it evidence that
could not be in any way shaken. When
the concluding stage had been reached
the following interchange of conversa-
tion took place between the judge and
his colleagues in the administration of
justice:

"Gentlemen, are you ready to give
your verdict?"

"Yes."

"What is your verdict?"

"Our answer is, sir, that you can do
as you like with the men that have
confessed, but we acquit all the rest."

"But is it possible that you have
weighed the evidence?"

"Evidence like this can always be
fabricated."

"Do you find that as regards these
prisoners it has been fabricated?"

"Evidence can be fabricated."

"So the evidence is untrustworthy?"

"Unless a man confesses who can
tell he is guilty?"—Bombay Gazette.

A Radium Clock.

There have been many attempts to
solve the secret of perpetual motion.
The nearest approach to that ideal,
though its inventor makes no claim to
have discovered it, is a timepiece de-
vised by Hon. R. J. Strutt, Lord Ray-
leigh's son, which consists of two
leaves of aluminum, an exhausted
glass tube and a fraction of a grain of
radium. The radio activity of the ra-
dium causes the aluminum leaves to
move once a minute, and with a wire-
less coherer a bell rings at each move-
ment. For 10,000 years at least the
wonderful energy inherent in the mi-
croscopic piece of radium will, it is
calculated, continue to act, and noth-
ing whatever needs to be done to the
clock once it is set going.

Musical Note.

A thief was lately caught breaking
into a song. He had already got
through the first two bars when a po-
liceman came out of an area and hit
him with his staff. Several notes were
found upon him.—London Mail.

PHOTOGRAPHS?

Why leave town when a good photo-
graph is wanted? . . . I ask is to have a
chance and I will do my best to please
you at any thing in the line of a photo-
graph, either on post cards or on a
mount. Call at the Press office for sam-
ples, and to purchase my pictures I have
there. I use the best paper and guaran-
tee it to keep its color and not fade for
many years. Drop me a card and I will
come to your home and do the best I can
for you, my prices are, for 5x7 photos,
\$3.00 per dozen; cabinet photos, \$2.00
per dozen; smaller photos, \$1.25 per
dozen; post cards, \$1.00 per dozen.

Yours respectfully,
JOHN C. GORDON.

Guard Your Eyesight

Little eye defects grow to big ones if
not promptly and properly attended
to. We have had long experience.

FARM IMPLEMENTS
Buy The Best—It Pays

When you're ready to buy new farm imple-
ments weigh every fact well. Study the materials, investigate
the construction, look well into every detail that makes
for strength, durability, and economy.

We've stocked our ware-rooms with implements that
will bear this kind of an examination. The best makes
are represented. You can't go wrong on a plow, cul-
turator, harrow, or any other implement bought at the
Farmers Union.

In addition to farm and garden implements, we carry
an immense stock of hardware, groceries and provisions,
crockery, and everything for farm and home except
clothes and shoes.

Mail orders carefully filled. Write for quotations.
We can save you money.

Orchardists, Attention
We sell Extract of Tobacco, Sulphur, Lime, Salt, Etc.
Protect your trees from the ravages of scale and pests.
